

BlueStamp Engineering Introductory 2-Week Program

As an alternative to our full 6-week program, BlueStamp Engineering (BSE) also offers a 2-week introductory program in all of its cities. The 2-week program takes place concurrent to the 6-week program and is offered every week during the 6-week program. This 2-week program is intended to provide students with basic project building skills.

Similar to the 6-week program, 2-week students will select which projects they want to build and document them individually. The key difference between the 6-week and 2-week program is the level of project complexity. 2-week students are given project options that are simpler to design. Also, the addition of custom modifications upon finishing the project will be limited due to time constraints (although students may work on these independently and engage the instructors remotely for guidance).

In the 2-week program, students will build 1 kit-based project of their choice (voice changer, LED lighting display, etc.) and 1 project from scratch. The latter project will be less challenging than students in the full 6-week program, but is still chosen by the student and built from concept to prototype. Example projects include weather-tracking devices, solar-powered speakers, robot tanks, digital camera with Raspberry pi, Geiger counters (radiation detection instrument), etc. BSE staff will work with students prior to the start of the program to select projects of interest. Students will begin building the projects within the first hour of their first day after receiving training from BSE Staff.

2-week students will attend the same location as the 6-week program students and partake in all technical discussions with BSE staff, guest presentations, and other BSE activities. 2-week students will also have the opportunity to create their own page on the BSE website to showcase their project(s). Listed below are the dates and cost of the 2-week program for each city. **Apply now by clicking [here](#)** and selecting “2-week Program” under “Program Interested In” when completing your application form. For further information, please feel free to contact us at: info@bluestampengineering.com.

<u>New York City 2-Week - \$1750</u>	<u>Denver 2-Week- \$1200</u>
June 26 – July 7*	June 12 – June 23
July 3 – July 14*	June 19 – June 30
July 10 - July 21	June 26 – July 7*
July 17 - July 28	July 3 – July 14*
July 24 – August 4	July 10 - July 21

<u>Silicon Valley 2-Week - \$1600</u>	<u>San Francisco 2-Week - \$1600</u>
June 12 – June 23	June 19 – June 30
June 19 – June 30	June 26 – July 7*
June 26 – July 7*	July 3 – July 14*
July 3 – July 14*	July 10 - July 21
July 10 - July 21	July 17 - July 28

* Due to the July 4th holiday, 2-week students during this time will attend one double session to account for the missed day.
